TECHNICAL SKILLS

Programming Languages: *C++, JavaScript, C#, Python, Go, SQL*
Tools & Technologies: *Node.js, React, Unity 3D, TensorFlow, PostgreSQL, Docker, AWS, Git, Linux*
Concepts: *Problem Solving, DSA, Deep Learning, OOP, System Design, Applied AI, RAG, Game Programming, REST API, Design Pattern, Debugging*

WORK EXPERIENCE

Enosis Solutions – Senior Software Engineer (*Aug 2022 - Sep 2026*) ***Dhaka, Bangladesh***

- Worked in a 70+ member team in the successful development and deployment of a web project being used by 60,000+ users, using Node.js and React, meeting tight deadlines for feature implementation.
- Used AI-assisted development tools to review, refactor, and clean up code, improving maintainability and development efficiency.
- **Skills**: Node.js · JavaScript · React · SQL · PostgreSQL · Docker · AWS · C# · Go · Jira · Git · Debugging

Inverse.AI – Machine Learning Engineer (*Mar 2022 - Jul 2022*) ***Sylhet, Bangladesh***

- Boosted accuracy by 50% in the audio noise reduction application over the previous solution by developing and training a new TensorFlow-based deep learning model.
- Improved mobile version performance by 20% by developing the model in C++ (NNAPI).
- **Skills**: Python · C++ · Deep Learning · TensorFlow · Linux · Git

EDUCATION

Leibniz University Hannover, *Hannover*, *Germany*.
Master of Science in Computer Science (Oct 2026 - Present).
Gopalganj Science and Technology University, *Gopalganj*, *Bangladesh*.
Bachelor of Science in Computer Science and Engineering (Jan 2017 - May 2023).

PROBLEM-SOLVING ACTIVITIES

- Attended **15+** National programming Contests including 3 **ICPC Dhaka Regional** and 2 **NCPC**.
- **Expert** on Codeforces OJ (Max rating: **1816**, **Top 2%** in global rating).
- Solved **2000+** Algorithmic Problems on online judges including LeetCode, Codeforces etc using C++.
- Worked as a judge for several national programming contests and trained at University programming club.

ACHIEVEMENTS

- Placed **Top 10%** on multiple National programming Contests including **ICPC Dhaka Regional** and **NCPC**.
- One of my published mobile game has been downloaded **2M+** times and rated positively by **11K+** users.

RESEARCH

- Identifying brain hemorrhage using Deep Learning techniques (Read).
- **Skills**: Python · Deep Learning · TensorFlow · Linux

PROJECTS

Battle of Agents (Game) – *Unity 3D, C#*

- Solo-developed this 3D local multiplayer shooting game, handling all aspects from initial planning to release

The Last City (Game) – *Unity 3D, C#*

- Used Singleton and Observer pattern while implementing the codebase in C# with Unity.
